COURSE DESCRIPTION

Hana's Academy accredited training courses are designed to equip all students with the skills, knowledge and understanding needed to progress onto a successful and rewarding career in the Hair & Beauty industry.

The courses are delivered in a salon environment where theory and practical skills will be demonstrated by the tutor and instructions and guidance given to the group and/or to the individual.

Each student will be provided with an informative training manual with step by step guidance for the specific course they are on and will need to use this throughout the duration of the course and will be able to take this away with them for future reference.

The courses are competency based learning, via observation of student's ability to demonstrate skills and knowledge. Assessments are via observation during practical work and will be recorded on Log sheets and theory work will need to be recorded in individual training manuals.

As we are recognised by BABTAC for being professional and fully insured training providers you will not have to worry about gaining insurance, as when you have completed the course and received your certificate of achievement you will be able to take out BABTAC insurance for your treatments.

AVAILABILITY OF COURSES

Courses run throughout the year and can be flexible to suit each individual's requirements and structured dates will be on the website in advance giving you time to book onto your chosen course.

121 tuition is a very popular option to suit mainly mature individuals wanting to train from their own home or in the salon environment, booking is essential for specific dates and times and Hana's Academy staff will be more than happy to accommodate for each individual's training needs.

Free course assessment is a service we provide as standard, if any student is unsure of which is the right course for them, we will complete an assessment of your current work and assess it to see if a basic, intermediate or advanced course would be the most beneficial to you, at no cost at all as at Hana's Academy we want all our learners to achieve the greatest success by choosing the most suitable course.
